## Experience

### Faculty of Engineering and Technology, UNILORIN/ Front-end Developer

AUGUST 2022 - PRESENT

- Worked as part of a team that built and tested the voting platform to be used by over **4000 students** in the upcoming faculty elections.
- Built and deployed the entire frontend of the application including client and admin dashboard as part of a **4-person** team.
- Implemented nomination form for candidates integrated with the payment system.

### Advanced Technology Limited/ Front-end Developer

OCTOBER 2021 - PRESENT

- Developed frontend of web applications for stockbroking firms using HTML, CSS and Javascript as part of a **6-person** team.
- Rebuilt entire frontend of web application with full user experience redesign in **5 months**.
- Participated in website development projects from initial design through completion, optimizing all cross-browser and multi-platform compatibility, reduced loading time of projects by **18 percent** by applying lossless image compression and using CDN.
- Worked closely with other developers on the team and clients to meet project requirements, goals, and desired functionality.

### Advanced Technology Limited/ Software Developer Intern

JANUARY 2018 - JULY 2021

- I worked as a seasonal intern at the company where I learned how to build interactive and functional websites during school breaks.
- Learned the basics of web development using HTML, CSS and Javascript.
- Assisted in the development and maintenance of **4 websites**.
- Shadowed senior engineers, worked on relevant projects and developed both my hard skills and soft skills.
